My Rating :star: :star: :star: What I Like This is a fine and compact knife, it can kill your enemy right away after only one hit. The knife also has its own animation with your character. Dislike It is too expensive and it just a gear element, you can use it in many games, even if you have spent money on it. And it can be harmful to young children. Price 500 robux Type Gear Attribute Melee Mad Murderer knife is a small knife gear, but it can cause a lot of damage to your enemies. It can kill your target right away after one hit (one hit one kill). Unlike the Bombo Survivor Knife, you can't throw it. But it has very cool animation with your character when you equip it on hand. After your targets were killed by this knife, they would have a manly scream Ahhh (not Ooff). But you can only use this equipment to customize your character, you can't use it in games, except that the game supports this equipment or you have a gamepass. But this is still a powerful equipment of Roblox, everyone is afraid of it. Into Roblox? Join the community. Get amino into Roblox? Join the community. Get App July 21, 06 August 14 14
